

# **QUORN HASH HOUSE HARRIERS**

## **2013 REPORT**

Compiled by DUREX  
3rd January 2014

The following information is derived from Hash Cash and Hare Razor records for 2013. During 2013 there were thirty six hash trails (run numbers 793 – 818). We celebrated our 800<sup>th</sup> run with a low key camping weekend at Winstar but our biggest event was run 808 at Great Hucklow bunkhouse weekend in October with the theme 'SOS Man the Lifeboats'.

Seventy three different hashers attended QH3 runs in 2013, twenty seven of these came only once (mainly guests attending our away weekend events). There was a hard core of just 10 hashers who attended 15 or more hashers. The average pack size was 11.6 compared with 11.8 in 2012. The most hashers at a 'normal' hash was at run 807, Chequers, Stanton-by-Dale on 1<sup>st</sup> September 2013. The first weekend in September is obviously a good time to set a hash, in 2012 there was also a good turnout for the same weekend. The lowest numbers at a hash is shared jointly with Monday night runs 791 (Paget Arms, Loughborough, freezing cold with snow on pavements) and 803 (The Plough, Radford). As the latter had two hares (Chicki and Too Tuff), it qualifies as the lowest pack size with just four hounds. Run 805 (Jonty Sailor, Derby) was a 3D run with an ascent up and down a helter-skelter. It was also our shortest trail. Captain Oates also promised an 'extra short run' for another of his trails (run 813, Curzon Arms, Woodhouse Eves) at which extra shorts were indeed provided. As everyone (except the hare) failed to find the middle bit of this trail, this could technically also be considered as the shortest trail.

Durex attended the most runs in 2013 (32), closely followed by Chicki and Too Tuff (31) and Butt Plug (29). Bugger completed his 400<sup>th</sup> run on his penultimate QH3 outing in 2013 (Jingle Balls run). Newcomer Captain Oates came to 26 of our hashes and Ond and Beer Barbie were also newcomers who joined us for a good number of trails before moving away.

For the second year in a row Chicki was our most active hare being involved in 8 trails, closely followed by Butt Plug (7) and Too Tuff (6). Chicki was even a solo hare for the first time confidently setting a figure-of-eight trail (Run 810). Captain Oates set an impressive 5 trails in his first hash year. Taking into account the number of trails set solo, Butt Plug comes out as our most dedicated hare.

A new committee was elected on 7<sup>th</sup> April 2013 with Chicki elevated to Grand Master replacing Malteaser (see table in this report). This meant relinquishing control of the Hash finances which she has controlled since before decimalisation to Durex. New RA (Shagulator) is attempting to emulate the previous RA (Rasher) in turning up to as few trails as possible once appointed

to this prestigious position. Beer Barbie was only with us for a while but more than adequately stepped into the position of Master of Music.
