RUN 28 WHITWICK WOODS

18 JUNE 1989

HARE: FLASHER

Hands up all those who couldn't find the 'Man within Compass' - an appropriate name indeed, or should it be 'Man without Compass'?

Anyway, with the sun high and an assembled pack eager for the off, a short pre-run briefing 'On on is that way' (points southwards) launched the usual mixture of old faces and some welcome new ones into the delightful wooded countryside of NW Leicestershire. Whitwick's the name, Hashing's the game!

With cries of 'On on', 'Are you?' and various other shrieks, the pack disappeared - eagerly seeking familiar scatterings of flour. At this point the FRB's began to show themselves - Hard-on (a welcome appearance!) and Peter, a young boy of no more than 7 years led the rest up hill and down dale, leaping rocks, hardened 'shiggy' and general rough terrain, only slowed by several checks and those too tired to keep up!

Then, a small breakaway group found themselves way ahead of the others - only to re-trace part of the earlier trail as the main pack pursued the correct way out of earshot from the intrepid 4! There was no alternative - flag down a passing motorist and ask the way - the trail was lost! A spirited road run 'On in' was required whilst everyone else nipped over the hill and into the pub grounds (with time for a round of drinks!) before everyone was back!
