RUN 29 BOTCHESTON

23 July 1989

HARES: ELLYMAY & WALLINGTON (again)

---

Phew! What a scorcher - and that's just the trail! Another blisteringly hot summer's day in beautiful Leicestershire countryside!

The pack gathered - but where were the Quorn regulars? All the faces were either new or Sherwood H3! So come on you Quorn - let's see you at the next run!

Away they went - virgins and seasoned Hashers alike into pastures new (and weedy!) Livestock scattered in all directions as the FRB's entered the first nettles with suitable screams of pain! 'On on' they went until the welcome sight of the watering hole masquerading as a beer stop - Hoorah!

Watered and rested (temporarily) the pack regrouped and set off again through the ford and away into the copse. An hour later and everyone arrived back at the pub and much jollity followed at the après ceremonies!!!
