RUN 31 WHATSTANDWELL

17 SEPTEMBER 1989

HARES: PAULINE & TREVOR

---

Look at that hill!!!!!! Not for the faint-hearted the 1 in 3 at the start - the hill top was obscured by the clouds!

Any road up, the pack gathered in the car park taking all the locals' parking spaces! Ha! Ha! Good to see so many new faces - but where are the Quorn? Pre-run brief completed (thank you Mr Spill for translating!) the hashers scattered in all directions - where's the trail?

Soon, they were 'on' - along some dodgy river bank and then up the hill side through foliage not seen since the Burmese jungle (watch out for Japanese snipers - well they said there's a nip in the air!) Before long the trail was lost - and so was most of the pack by the sound of it. Much cracking of trampled undergrowth and manoeuvring about bent double to avoid low hanging branches and other obstacles!

Eventually, beer stop completed (nice beer too!) the motley bunch headed off refreshed and rejuvenated to rejoin the trail which would lead them on a course a commando on training exercises would be proud of, uphill and downhill until home was found. On in across the spectacular bridge and to much jollity in the beer garden!

#### Après Hash

Well, with three Hash birthdays (including one on the day itself!) something was bound to happen. It did. A massed 'custard pie' from all and sundry floored the birthday boys into giggling heaps - boy, does that stuff sting! The best was to follow, though, with a sumptuous cake to eat - and candles too!

Hash Awards

Well - the Hash Nut has gone for good, it seems, so the RBAA was awarded to for reasons I've forgotten.

p.s. Thanks to the Derbyshire Hashers - especially Hamster!  
Keep up the good work - we need you!

(sorry it's a bit late).

On! On!
