QUORN HASH HOUSE HARRIERS

Run 48
The Star, Thrussington
Sunday 20 January 1991
Hare: Wallington (assisted by Ellymay)

Prior to launching ourselves into the joys and thrills of the Hash, a ceremonial decoration of the founder member took place. Mango, our wonderful 'Mother' and role model is soon to be over 39, but less than 41! Of course, this important event could not go unmentioned, so a vastly expensive, specially commissioned QH3 T-shirt was presented along with an abundance of streamers and riotous singing etc - Happy Birthday - we love you!

Who was it who said 'time is but the difference between one moment and the next'? No-one actually - I've just made it up! But this Hash was most notable for the reappearance of several of the original (certainly very early) Quorn recruits! Maybe you don't remember the time 'Shitface' ran with Zupada, Gazunda and Mango back in '87? On this day we also saw Hard-On, Whisper and Paxo from Sherwood H3; running alongside Virgins James, Elaine and 'old guard' Flasher, Wallington and yours truly - a mixed bag of social outcasts if ever there was one! Enough of the preamble - let's Hash!

Yet again the weather was kind (the sun shines on the righteous!) A keen pack gathered on Thrussington's Green for the 'off' as bewildered locals peeped from behind net curtains and walked on the opposite side of the road!

With no flour in sight on any of the six exit roads it was anyone's guess where to start! But start we did into the wild frontiers of deepest Leicestershire. The first check confused everyone - the prospect of an early dip in the river sent the pack all over rather than following the trail into the water! A short (and dry!) cut was soon discovered. Then on to the railway tracks and the threat of a one way ticket to Carlisle hurried everyone onto stage two of the trail into the grounds of the College. A curving trail 'dog leg'

sent all but the Hares up a hill in the wrong direction! Ha! Ha!
Still, it was worth it - a couple of Grey Squirrels scampering up
the trees was a pleasant Sunday morning aside - after all this is
for pleasure!

On! On! to the farm nestling high on the hillside via another
misleading check - the local bloke did his best to send the FRB's
and SCB's the wrong way and partly succeeded too! Eventually, a
brisk canter across open (and windy) countryside led us back over
the tracks (only 100 yards from the earlier crossing point!) and a
steady On! On! back to Thrussington and a welcome feet-up and bevy.

Après Hash and Down Downs

As the temperature dropped significantly, the traditional ceremony
was accelerated to avoid frostbite etc. Down Downs awarded and
consumed in double quick time were -

Wallington - Hare (or lack of it!) a great trail - well laid!
James - a Virgin (friend of James, son of Paxo!)
Elaine - another Virgin (and nice bum!)
Whisper - for returning to the field (welcome!)
Rodney - a welcome return!

Thanks to Zupada for the new posters - please distribute wherever you
can - let's spread the word!
