

RUN 1000: Sunday 7th April 2019. Moonface Brewery & Tap, Loughborough
Hares: Shagulater, Durex , Malteaser and Miss Takemenow

Run 1000 started from Quorn Central Railway Station. Needed 4 hares to lay and man the beer stop. It was great to see so many old familiar faces especially Habitat who was on the inaugural run back in 1987. The actual trail started in Loughborough where we all caught the stream train to Quorn. There was a walkers' trail and r*nners' trail which rejoined at the drinks stop. Skids and Nosejob couldn't decide whether to be walkers or r*nners and ended up getting a lift by car from a total stranger to the drinks stop. The circle was naturally a piss up in a brewery!
