

RUN 1013: Sunday 6 October, The Railway, Belper. Not the Castleton Weekend Trail

Hares: Durex and Malteaser

Welcome to Salty who actually spent a weekend in Castleton and joined us on her way back home. The hares got a soaking laying this trail and there was no need to include river crossings. The one concern was that we lose Butcher's Dog in a puddle - they were so deep! But the temp RA, B*gg*r, sorted out the weather. The hash started off in a drizzle, much appreciated by hashers at risk of overheating running up the steepest hill around town. The trail was bathed in sunshine later on and hashers only had to tackle the plentiful amount of shiggy and cows both of which escaped from fields. Well done Barritone as this was his 600th Run. Thanks also to Goblin who missed the trail but sent a cake instead!
