

RUN 1016: Sunday 17 November, Monkey Walk, Coalville

Hare: Bugger

This time Sweet Pea as RA had a near impossible job to keep the rain off but the hashers enjoyed a mostly dry albeit overcast trail. Very big welcome to virgin hashers, Dan and Liz, visitor Another Mother Trucker and returners Lucylastic, IP and Sweet Pea.

Second hash in recent times from this a previously coal mining village and the hare managed to set the trail avoiding a lot of tarmac by taking us through parks, disused railway track and countryside. Still slippery under foot as AMT found to his cost. Bugger was ecstatic having achieved a lifelong ambition to make hashers do a stream crossing on a false trail! Dan did his best to check it out as he wanted to train for a 10K, but we all knew not to follow him too soon as he got most of them wrong. Goblin missed the hash because of work but her shortcake feet were delicious as usual.
