

**RUN 1017: Sunday 1 December, Town Street Tap, Duffield**

Hare: Barritone

It was cold but dry for today's trail and with the sun shining Durex was the obvious choice as RA. The hare had a difficult task sweeping as the pack split into walkers (Malteaser and Wallington) and FRBs. The former went off on their own trail whilst Barritone had to keep moving to follow the FRBs running to the top of Quarndon Hill. Here a pause to admire the view allowed the sweeping hare to catch up. From there it felt like downhill all the way into Duffield and the On Inn. Another great micropub introduced to the QH3 by Barritone to match an excellent trail. Good run 👍👍👍
