

**RUN 1021 and 2019 QH3 awards.** 2<sup>nd</sup> February 2020. Cap and Stocking, Kegworth. Hares: Malteaser and Durex

Sausage (RA for the day) made a good job of the weather and he kept it dry for the whole duration of the hash and afterwards. Only one of the hares got a soaking laying it as Malti had a lie in. It was a brilliant turn out with a pack of 19 hashers; I'm sure the meat cobs, chips, free beer and biscuits enticed many. We had a welcome back for Dr Who, last hashed with Quorn in 1996 and for Physcojellie. Here's hoping to see you again! Nice to see George and Drag-On again.

Durex likes to set a perfect 5 miles for the trail and there was no arguments. Malti led the walkers round but Lucylastic was the only one rolling round in the grass. It was fortunate and good timing that we met Barritone walking his bike to the hash with shredded back tyre. He joined the trail from then on as the walkers wheeled/ lifted the bike back to the pub.

Barritone got his 600 timer T-shirt in the circle.
