

RUN 1027. 6th June 2021. West Park, Long Eaton. Hares: Bugger and Goblin.

The threat of rain didn't deter this pack of 15 along with 3 Hash puppies from gathering and experiencing the joy of hashing. Welcome to Neil, a newcomer to QH3. It also good to see returners Jetslag, Miriam and Nipple Kamekaze along with the core QH3 hashers.

An interesting trail which took us out of the park through a cemetery situated in front of a previous lace factory..... the largest in its day. The trail continued along the canal and urban areas to make a perfect 5 mile (according to the hares). Although we are unable to have the usual circle afterwards, the hares were rewarded with a beer.

Wallington has been trying out his new oven and we all enjoyed the delicious chocolate and orange cupcakes and cheese scones he brought along. We were spoilt this week as Goblin made tasty Tiffan cakes.... just as well that we had a run before!
