

RUN 1029. 4th July 2021. Racecourse Road, Collick. Hares: IP and Sweet Pea.

USA Independence Day and a virgin trail for the QH3.

Another good number of hashers turned out despite the threat of heavy rain and thunder storms in the forecast. As it turned out, the RA managed to hold the storm back until we were on our way back home.

The trail was cleverly laid in a figure of eight, through woods and by lakes and the river Trent. No problem with following the blobs of flour, however, technology got in the way when Nipple Kamikaze sent a few hashers completely wrong because he was following a tracker on his phone.

The On Inn was a lovely area in the woods where the hares provided us with Hot Dogs and Goblin brought Carrot cake and Bakewell cakes. The hash pups (Holly, Lucy and George), enjoy the left over sausages too.
