

RUN 1033. 5th September 2021. Swithland Woods, Leicestershire. Hare: Wallington.

We've had a beautiful sunny day for late summer and Wallington chose the venue well. The wood provided dappled shade for the On Out and more importantly the On Inn. The trail then passed through the picturesque Leicester village of Swithland. It was by the red telephone box that the hare split the trail for runners and walkers but the hares were the only takers for a short trail. Buggler hit the wall half way but found great encouragement from Ballcrusher. Durex was the FRB most of the way round trying hard to work off the few pounds gained working in Saudi Arabia. Goblin had been to the Produce Show and impressed everyone with a hugmangus onion which was as big as her head. She also got lovely chocolate and Dundee cake which was shared in the circle. All in all, it was a great way to spend a Sunday.
