

**RUN 1036.** 17<sup>th</sup> October 2021. Chequers Inn, Ticknall. **Hares:** Ballcrusher and Bugger

A wet hash today, mainly for the hares out laying it earlier this morning. Lovely trail, almost all off road and plenty of good checks. Weren't all those big red toadstools amazing! The hash was considered excellent without the need for a vote simply because chip butties were provided. The hares were thanked for their efforts in the traditional manner and a welcome back for 'strangers' Dobber and Gnome who had to no doubt listen to endless chatter from Gobelot as she walked them on the alternative walkers trail around Ticknall. Also many thanks to Goblin who provided desserts in the form of delicious cakes. That was my last beer for a month...On ON.. [Scribe Durex]
