

RUN 1037. 7th November 2021. The Ferry, Wilford. Hares: Duck 'n' Dive and Malteaser.

A good turnout on a chilly but sunny morning. We welcomed a couple of new faces to the QH3 Hash, HP Salsa and Locker Man.

It was a raucous start to the hash with Borderline insisting that the hare's markings were against conventions and hashers would have been lost in the jungle. The hares assured him that the local jungle was safe, (let's face it, the Meadows has improved), and eventually he enjoyed himself getting lost along the canal following behind 3 others! Duck 'n' Dive managed to find virgin trails in an area which has seen many of our hashes and he enlightened us with a couple of historical facts. The beer stop was under the first historical monument (an ancient piece of the original Trent Bridge), and the second was the resting place of Captain John Dean in the graveyard at the Wilford Church. Captain Dean was an adventurer and mercenary and lived in the village.

DDs were awarded to the hares for a very good hash, visitors HP Salsa and Locker Man and to Long Dong Silver for getting most of the pack lost. On On.
