

RUN 1039. 5th December 2021. Horse and Jockey, Stapleford. Hare: Durex

A lovely rainbow greeted the crowd of seventeen hashers gathered in the car park. Long Dong Silver completed his mental agility test and eventually got his bike in the back of a fellow hashers car whilst the circle waited shivering chomping at the bit.

Welcome back to returners IP, Sweet Pea and their dog Lucy who stepped in to be joint RAs for the day.

A secret ballot gave a good score mostly for getting onto some virgin trail although we've hashed from that venue many times before. The hare mixed urban with a trail along the canal and views across the Erewash Valley. Most of the walkers blamed Malteaser for missing the massive "W" for the walkers trail. They would have gone badly astray was it not for the hare who spotted them in the distance and called them back.

Thanks to Goblin for the tasty chocolate and the ginger muffins.
