

**RUN 1041.** 2<sup>nd</sup> January 2022. The Nags Head, East Leake. Hares: Drag-On and Malteaser

*The 9th day of Christmas with 9 Ladies Dancing (questionable when referring to hashers).*

First hash of 2022 and what a turn out! Today's hash comes after the sad recent passing of The Archbishop, Desmond Tutu and some people we encountered thought our attire was in his honour. We are glad that we honoured his memory even though totally coincidentally. Great to welcome back to Nose Job, Late Comer and Day Tripper from Bull Moon H3. New Year resolutions might have enticed new comers Jamie and Cat to give hashing a go. Hope you enjoyed yourselves and return.

A hard trail even by Quorn standards made to feel longer by the wonderful shiggy on most of the trail. No one lost their shoes in the slippery, sticky mud but a pair of trainers were left in the car park unattended. Some of the marking were washed out by rain and maybe eaten or erased by dogs or their walkers but this was no challenge for newcomer Jamie who was an FRB who hotly chased by Butchers Dog and Sausage.

Down downs were awarded to the hares for a good trail, NJ, Day Tripper and Late Comer as returners, Jamie and Cat as newcomers, Borderline, Sausage and Buzzer for rejecting the dancing clothes. Wallington was awarded a DD for being down with the kids and wearing ripped jeans and Barritone for joining the Christmas BMH and singing beautiful carols.

Best hash of this year.....Should have been there!
