

RUN 1042. 16th January 2022. Victoria Hotel Beeston. Hare: Barritone

Nowhere Man lived up to his name and nowhere to be found so Barritone stepped in to lay the second hash of 2022. GM had to swallow a massive slice of humble pie and apologise for sarcastically welcoming Long Dong Silver to the hash having mistaken him for the elusive Nowhere Man.

There was an almost equal numbers of walkers to runners and the trail took us along the River Trent and back up the canal. Local knowledge didn't help LDS and he ended up finding the worst shiggy of this hash. Barritone pointed out the brick steps leading down from the bank of the canal to the Lido that was there some time back. The only creatures enjoying the waters today were some swans.

The RA, Bigger awarded DDs to Borderline for technology on the hash, Golden Hole for the fast and furious pace she set, Miss T for the colour of the tea, Barritone for a good hash, LDS relying on local knowledge and Malteaser for insisting on using both sides of the paper.

Shagulater joined the circle in the On Inn and was rewarded by a weak coffee.

Thanks to Goblin for the yummy cookies.
