

RUN 1044. 20th February 2022. The Bird Hide Micro pub. Hare: Barritone

RA for today was Durex and even he couldn't get the sun to shine! He did manage to stop the rain for the duration of the trail.

The pack set off before the hare returned from setting the trail and maybe it's just as well as he picked up Borderline who was a late comer. Borderline decided that a 5-mile walk was too much for him so he returned to the On Inn half way round. Plenty of shiggy and water to keep Bugger happy, not sure that everyone else were so pleased.

The On Inn was warm and very welcoming with excellent ales from the local brewery. Thanks to Goblin who has been baking again. Delicious!
