

RUN 1045. 6th March 2022 The Gate Inn, Awsworth. Hares: Durex and Malteaser

A beautiful day for a great trail set in a special industrial and cultural area. Of course DH Lawrence is a big and very famous association to the area but the Bennerley Viaduct is of equal draw since it's been restored and made accessible to walkers.

A big welcome to returners, Cinderella, Ballcrusher and Wallington for whom this was the first hash of the year. Cinderella brought a virgin hasher, Daniel, who together with Golden Hole, (now fully recovered from injury), boosted the runners to a good count of nine. The trail went under and then crossed the Bennerley Viaducts to the great delight of the various engineers on the hash. One was so impressed by it, he was caught crouching down taking pictures of "rusty holes ". A good reasons to take the extraordinary step of naming the virgin hasher Rusty Hole on his very first Hash!

The walkers trail was a neat 3 miles with the full trail being 5 miles (without the checks). The various false trails kept the runners on their toes and some clocked up 6.5 miles at the end. The On Inn hosted the hash circle with lots of laughs and DDs enjoyed.
