

RUN 1047. 3rd April 2022. **AGM and COVID pandemic Hash Awards (2020-2021).** The White Lion, Sawley. Hares: Bugger and Goblin

An excellent trail prior to AGM and The Pandemic Hash Awards. Good to welcome back Lightning Rod, Smutley, Diarrhoea and Skids.

The hares braved the low temperatures of this Sunday morning to lay a trail which had the right mixture of interest; through countryside, along the canal and some urban areas. The running hashers were worrying golfers, (maybe they should have been on a lead), and kept crossing the path just as a shot was about to be taken. No sheep were spotted, but we were inside the Nottinghamshire border. Plenty of ducks, swans and dogs walkers. I saw my first Clumber Spaniel, a beautiful dog which seemed to be taking his owner for a stroll.

The walkers were offered a map to follow a short cut however they still managed to go wrong despite Malteaser declining to lead the way. Too much talking; what is the hash coming to!!

The hares were thanked and rewarded for a really good run in the usual way and everyone enjoyed free chip butties and beer followed by shortbread and chocolate cookies courtesy of Goblin.

The last mismanagement committee was dismissed and a new lot ushered in with Goblin at the helm as the GM.

Awards

The Hasher of the Years went to Goblin who produces edible delights after every hash throughout the years. It's always good to have solids to soak up the beer.

The Loser Award went to Bugger who managed to lose the whole pack on one occasion.

Best Newcomer was awarded to Drag-On (& George) whose first Hash was in 2020 but have already laid two trails since.

The Postie Award went to Wallington for inundating FB with loads of old photos from the 1980s when hashers had hair and sideburns!

The Best Trail also went to Wallington for the 2021 Xmas trail. He encouraged hashers to hand out sweeties to children, had carol singing on the bandstand led by Barritone, a pub stop at a pub which had run out of beer and food and drink at the On Inn.

Most Camp Award went to Durex for carrying the most camping equipment, including a gazebo, to a hash.

The Santa Award appropriately given to Skids who visits her "mother hash", once a year.

SCB Award went to Borderline; a hasher who comes late and goes before a Hash is finished.

Hash Nosh was awarded to Ballcrusher for the magnificent spread he produced after his trail.

RTFI (Read the F***ing Instructions) Award went to Malteaser who is known to ignore detail.

Hare of the Years and the wooden Hare went to Barritone, for setting excellent trails consistently and sourcing out new interesting On Inns.
