

RUN 1049. 1st May 2022. Bestwood Lodge Car Park. Hares: Lockerman and Long Dong Silver

A beautiful green place, part of Sherwood Forest area. An impressive Lodge, (now Hotel), and a spit away from one of the hares home. The RA granted us dry weather despite all the rain dancing going on by allotment holders. A great welcome back to Huffamoose.

Borderline didn't break with his tradition of arriving late for the hash but caught the runners up in good time. It was unfortunate that he relied on Huffamoose to advise him what the hook back meant and that earned them both a DD at the end. The RA aptly described the trail like "whore's drawers", but we were all relieved that the hares avoided a long, very steep hill that even horses avoid. Markings used were very subtle in places, (combination of chalk and flour), and walkers ended up doing nearly 5 miles even though the hare was with them. We had plenty of beers at the On Inn curtesy of the hare and a small picnic from the GM's car boot. Thanks to everyone. IP & Sweet P reached their 100 runs with Quorn H3 and they were also rewarded in the usual way.

Hashers received a special gift to celebrate The Quorn Hash 35th Anniversary. Wallington who is a founder member still hashing and may he long continue!
