

RUN 1051. 5th June 2022. **Queen Elizabeth's Platinum Jubilee Hash.** The Crown, Anesty.

Hares: George and Drag-On

A surprisingly large group turned out for this Platinum Jubilee weekend Hash considering the RA didn't organise the sun to shine; it was, however, dry for the duration. Most of us turned out in the red, white, and blue of the Union Flag as requested but Drag-On took no chances and handed out 7 big flags. They made a colourful sight through the streets of Anstey.

A very well laid trail with lots of checking opportunities and a few shortcuts which certain hashers took advantage of.

Our GM baked delicious crowns which went down a treat. Thanks Goblin.

DDs were awarded to IP and Sweet P for wearing French wigs and to Golden Hole for not having a queen at all, being from Ireland. Sausage was punished for not overtly wearing the colours with his protest which led to him revealing the red of his underpants in the car park before setting off.

There was a DD welcome back to Wriggle and Smutley and one for short cutters Long Dong Silver, Wallington and HP Salsa.

Hash Spare Part, Borderline and Malteaser were rewarded for Hash Flash, so now let's hope that Borderline posts the photos he took whilst running. The RA, Durex was punished for incorrectly referring to the flag as a Union Jack. You learn a lot on a Hash! The secret ballot scored this trail as a very good run and good On Inn.
