

RUN 1053. 3rd July 2022. Broad oak, Strelley. **Hare:** Borderline

The GM (Bugger) welcomed back Lockerman who returned from Rwanda and bid him farewell at the end of the Hash as he's off to Bangladesh for a short stint.

Markings were explained by the hare before we set off, maybe to use up the remains from the seven bags of flour he used on the trails. Good to have a marked walkers trails with checks; it was like a mini hash with the beginning and end common with the main trail. Well done Borderline..... much appreciated by us especially since it was such lovely terrain through the woods and countryside.

The runners had a bigger challenge to find the marking through a couple of fields and Durex was stopped by the owner of a house when he tried to investigate a blob of flour on his private drive. Borderline up to his old tricks!

The hash was informed of a memorial commenting three residents of Cossal who died at Waterloo. Goblin was in and out of every church and graveyard she passed, (apparently, there was a few), until she found it.

On our return to the On Inn we found that Wallington was a late comer and already enjoying a drink inside.

The RA performed the circle with good humour and awarded DDs accordingly. Thank you Goblin for the delicious baking.
