

RUN 1055. 7th August 2022. The Sun Inn, Gotham. **Hare:** Durex

Very big welcome to visitors and newcomers to Quorn, Leaky Dick, Wet Nurse, Milkmaid and little Alex from The Saigon Hash. Also nice to see returners Cinderella and Rusty Hole. The hare was delighted that the numbers of hashers running almost equalled the ones walking the trail. We were led up a hill on one side of Gotham, under the shade of trees in the wood and down again. The walkers only had a short distance back to the On Inn but the runners were not done with hills yet. I'm sure they enjoyed running the other side and along The Logan trail before heading back to the pub.

The hare awarded himself the Hash Shit T shirt (a relic from his Bandung Hash days), which will be forwarded to other shit trails, most likely Borderline..

Down downs for the two fallers, Malteaser and Golden Hole.
