

RUN 1060. 16nd October 2022. Seven Oaks Inn, Stanton by Dale. **Hares:** Durex and Malteaser

It was beautiful sunshine, blue skies and a crisp autumn day which encouraged so many hashers to turn out of their beds. Welcome to a Quorn hash virgin Wee Beasty and a returner Skids. Butcher's Dog has competition for the FRB title now with Wee Beasty biting at her heels!

The trail was in an area often used by the hash, passing through the pretty village of Stanton by Dale and it's golf course before making its way to a view point at Stony Cloud looking north toward Ilkeston and Crich. The hares managed to keep hashers guessing sending them on long false trails. The GM and RA found the pace hard to beat and never managed to catch the main pack after they were late at the start. Durex, who laid the trail in the morning, lost his mobile phone whilst doing it, and was awarded a DD for his trouble. It was found by the second check and all was well.

The GM must have been scrumping for apples and brought along a tub full of delicious apples together with handmade apple pies and chocolate cake. A very good treat for everyone there. Thank you Goblin and we'll done to the hares.
