

RUN 1066. 15th January 2023. Ferriers Arms, Lount. **Hare:** Smutley

Some heeded the call for appropriate dress to commemorate The Battle of Hastings. Others were prepared for the shiggy ahead.

Welcome back to Leaky Dick and his friend Leaky Pipe, who got a name on his virgin hash today. Always great to welcome visitors and we had Katoyboy and I Chocked Linda Lovelace,(quite a mouthful! so it's ICLL), from the Saigon hash.

The hare said the trail was a perfect five miles with a shorter one for the walkers. Today was a good example of why one should never believe a hare; the walkers ended up walking 6.5 miles and the runners had a few extra loops and totalled 9.2 miles, lasting over 2 hours. It was a good job that ICLL is an experienced hasher as he didn't hear the call back at the point that the On Out crossed the On Inn and ended up running the trail backwards, believing he was the FRB all the way.

We were very lucky that the RA (Durex) held the rain back throughout. A wonderful rural trail with lots of shiggy enjoyed around the Staunton Harold area. The hare added a holding check to toast King Harold with mead or was it ginger wine?

Again we enjoyed good beer and deliciously decorated biscuits thanks to our GM.
