

RUN 1067. 5th February 2023. The Black Swan, Shepshed. **Hares:** Bugger and Goblin

Welcome back to HP Salsa and Lisa, (still unnamed at the start of today), whom we haven't seen on a hash for a while. A good pack size was rewarded with a lovely, crisp and sunny morning.

The hares planned for dire winter weather and went with a relatively urban trail which surprisingly passed through many green areas, parks, playing fields and along a disused railway line. Who knew Shepshed was so big and has hundreds of ginnels! Great fun was had passing through tubes, trampolining and riding the zip wire.

The RA struggled to keep order in the circle and justly punished everyone with a drink of very fine beer. Lisa, who was wearing a hoody with a quote to Las Vegas on the back aptly got the name of Strap On.

Thank you hares for a good trail and Goblin for the tasty cakes.
