

**RUN 1068.** 19<sup>th</sup> February 2023. The Star, West Leake. **Hare:** Drag-On

A beautiful February day and mild temperatures enticed a good group of hashers to come out to play. The Black Ninja (Borderline), seemingly not acclimatised from his travels to the Far East yet, looked trimmed and toned with all the hashing he'd done abroad. HP Salsa was like a coiled spring when he arrived just as the pack was setting off. Missing a motorway exit a couple of times is not recommended at the best of times. He quickly exhausted his pent up energy and changed from a runner to walking round.

The hounds seemed to have a great time mostly without a leash and loved swimming in a couple of ponds on the way round the trail. The walkers clocked up a little over 5 miles with the runners doing an extra loop and a lot more checking. Their average was 7 miles. The On Inn is a favourite with our hash but we never get bored with any of the trails and amazing panoramic views on the way round. A red kite soared overhead and lamas stared at us from their field.

The  overseen by Locker Man as RA punished sinners with a tasty real ale/soft drink. The GM has been doing some vegan baking and we love helping her out with the delicious cakes. Thank you Goblin.
