

**RUN 1069.** 5<sup>th</sup> March 2023. The Kings head, Sutton Bonington. **Hares:** Malteaser and Skids

It has to be the best trail of the year laid by yours truly! The very chilly weather and late changes of On Inn on social media did not deter a big pack turning out.

Welcome back Dr Who, whom we last saw before the pandemic. We were also joined by LK (virgin hasher), who came just for a nice walk.

QH3 has hashed from this pub many times previously and I was worried that it was an easy trail for those who know the area, however, the greatest satisfaction as a hare came when Butchers' Dog said that I kept her guessing most of the time. My work was done! The crops, mature Millennium Wood and a bounty of footpaths made it a sound trail.

Goblin excelled with yummy chocolate cake and flapjack. Thank you.
