

RUN 1070. 19th March 2023. The Windmill, Wymeswold. **Hares:** Sweet Pea and IP

The beautiful village in NE Leicestershire was the start of this wonderfully shiggy trail. Definitely stands a good chance of an award. We were pleased to be joined by a returner, Clementine, now with the Glasgow Hash and visitors Masterbaker from The London Hash, Anal, Sickdick and Bull Rider from a Chinese Hash. Welcome guys and join us again if you're in this part of the world again.

We soon left the lovely thatched cottages and horse riders to be in open fields and countryside. The ground, soggy from all the previous days rain left hashers adopting interesting techniques to avoid getting their feet wet. Anal was witnessed taking his shoes and socks off before wading through water and once over the stile, taking a towel from his bag to dry his feet before putting on his trainers again. One of the hares showed hashers how she straddles the puddles to avoid wet feet but no one had any ideas how to stop the clayey mud from acting like a weight around footwear!

Walkers were promised a shorter trail, however, the hare forgot the shortcut but the pack was kept together rather well since the runners found it a bit difficult to find the markings. A very good trail agreed by all even though there were no brunette sheep on the way.

Thank you Goblin for the lovely cakes.
