

Hares - Bugger & Goblin

The Lonely Lion!

Well it was certainly a **Happy Happy Day**, or was it a **Ride On, Ride On, In Majesty!** It turned out to be glory sunshine with slight breeze of cool air. As usual I'm being the first to turn up at the car park. It was some ten minutes before Porca arrived then Blow, and then finally the rest of the pack turned up including my two favourite doggies! Lucy and Snowy! I was hoping for a short run today having been dogged by illness and this was my third outing since before Christmas. Just before the hashers set off on their run, Bugger the hare of the day have kindly given me a instruction for short run direction, which was brilliant. I certainly felt like a **Royalty** walking about a mile on my own. I end up sitting on a swing in nearby village park again waiting for the rest of the hashers turning up, already they look if they were shattered, being told by Creamy it was a fast run! Tom Cruise did a fly from his swing and landing like a bullet.

I stay with the pack through this lovely village but once we out into the fields, it was just Porca, Tom Cruise, Hannah and myself left behind. We decided we continue to walk as the weather was too nice to wear ourselves out, so we made it a nice, slow pleasurable walk and talk of taking another short cut. Porca and I was thinking of a pint of beer in our hand, readily to quench our thirst! Of course the four of us did arrived back to the The Lonely Lion pub first. It didn't matter we got our beer and settled down for our drink. Then finally the rest of the hashers turned up after completing their long run sweating and dripping! I also felt this run was a **Majesty Run**, and felt like a **Prince** too. My illness finally beginning to ease away but slowly thank to my doctor and my fellow hashers for making my day a **Happy. Happy Day.**

During my drinking session I was showing a newspaper cutting to my fellow hashers all about a real fairy tale story in my family, to which I am very proud.

Of course today was AGM day. A new committee have been declared thank to Durex for inflicting it on us. They are:
