

**Run 403 The Cadland, Chilwell**  
**Sunday 4<sup>th</sup> August 2002**

It wasn't looking good, gone 11 o'clock, no hare, no flour and hashers still pissed from the night before. As the numbers increased, the pub landlord came out to see what we were doing, he was not expecting us ! With promises that we would be back to drink lots of beer, he went off happy.

Eventually, a wet and flour covered hare arrived and after warning us that it was a long trail with no beer stops but the possibility of a bus ride back, we were off.

Across the road and down an alley, flour at last ! Through the back streets of Chilwell and onto Attenborough, through the mean streets of Attenborough and out into the nature reserve. Here the trail got more interesting, too many tracks, too many checks and not enough flour in between, the pack became split up so we improvised a holding check. While waiting for the pack to regroup there was what sounded like a tremendous rumble of thunder, but no, it was a gigantic fart !! When the hare arrived, but not from the direction of the trail, we were off again, out of the nature reserve and through the industrial estate that is Long Eaton. At the first pub we came to, we had a beer stop, from there there was a steady jog to a bus stop where we were just in time to catch a bus back to The Cadland although Durex decided to save some money by running back.

After copious Down Down's (the landlord was more pleased than Hash Kash), Chicki and Porca were presented with compilation CD's and presents to mark their 40th birthdays.
