It passed unnoticed but **MALTEASER** arrived on time (only because her clock was 5 minutes fast) and most of the pack was there to watch the trail design team ambling across the fields to the ON-IN. We felt pretty smug getting up in time for the hash. **PE** had already been to Matlock and back on his little bike before ensuring our new Master of Piss **SYBIL SNOT** turned up for his duties. Only **BUTCHER's DOG** was late obviously wishing to brush her hair before the run out of sight this time round. Co-hare **CHICKI** followed the pack down the first and second checks hopelessly lost on her own run within half-a-mile of the start. There was a lot of **BUGGER** about on this run. If you see a stream with a bridge, put a bar on it and make the bastards get their feet wet. **PE** was unaware of this tendency and sought no alternative when faced with a barred bridge. **MALTEASER** passed on the first stream crossing muttering something about a broken ankle and the "trust me I'm a doctor" routine didn't work even on **CHICKI** who was bleeding from scratches on her leg. **CREAMY** was whizzing around the hash propelled by Snowie on a lead whilst the new Hash Vegetable **BLOW!** took on much of the checking burden. It was a well-designed run with scope for the SRB's at the back led by **SKIDMARKS** to short-cut unseen.

With a new committee installed the circle was brilliantly led by the new RA awarding the following DOWN-DOWNS:

1. **BUGGER** as new Master had been subjected to much master baiting.
2. Two visiting hashers and two visiting virgins.
3. **WALLINGTON** for transgressing our strict dress code and wearing pink
4. **PE** for poor checking and unwillingness to lead us all through the first stream.
5. **SCROOGE** farewell. We're always glad to see him go – note he didn't get a welcome back!
6. **TOO TUF** for organizing a great brewery trip. Don't ring 0780 260213 if you want to thank him.
7. **TOO TUF, BUGGER** and **CHICKI** the hares for a good run.
